

CareMore Health Plan of Nevada (CMHP)

This plan covers the population enrolled in CareMore Health Plan of Nevada (CMHP), a Medicare Advantage plan offering both Medicare Advantage with Part D (MAPD) products, as well as Medicare Advantage Special Needs Plans (C-SNP) for Medicare eligible patients with chronic conditions (i.e. diabetes, CHF, COPD)

Providers will be paid according to the terms set forth in the Health Services Agreement between CMHP and SRQCN. Provider office submits claims (specialists) or encounters (primary care) directly to CMHP for payment. CMHP offers no cost chronic disease management programs for patients enrolled in CMHP product.
